AWARDS

Name:	Most Collaborative Study Session	Description:
Organization:	Student Academic Success Center, Cal Poly San Luis Obispo	In keeping with Cal Poly's "Learn by Doing" motto, the goal of Study Sessions was not to facilitate team work and group learning in a way that allows students to work through the problems and come to their own conclusions. I was given this award because of the way I led a collaborative Study Session where students could learn and work together as a team.
Date:	11-17-2016	

AWARDS

Name:	President's Community Service Award for Outstanding Greek Li	Description:
Organization:	California Polytechnic State University, San Luis Obispo	As a member of the Philanthropy Committee of the Fraternity of Kappa Kappa Gamma San Luis Obispo, we were selected for the President's Community Service Award for Outstanding Greek Life Contribution. We were selected due to our large scale events that raised funds for Jack's Hand, as well as smaller events such as donating blood, leading beach clean-ups, volunteering at the SLO Marathon, spending the weekend giving back at the Wildflower Triathlon and donating books and reading at local elementary schools during our Reading is Key events.
Date:	05-12-2016

ACHIEVEMENTS

AWARDS

Name:	Best First Time Study Session Leader	Description:
Organization:	Student Academic Success Center, Cal Poly San Luis Obispo	I facilitated study sessions for students in Biology, Chemistry, and Physics classes, lead discussion, and taught students study skills. After my first quarter of doing so, my supervisors gave me this award because of my ability to learn the job quickly, demonstrate excellent leadership ability in the sessions, and communicate clearly with the students.

HONORS

Name:	Soon-to-be published contributor of Research Paper	Description:
Organization:	Cal Poly Kinesiology Department	The research question asked, "Are the acute cognitive benefits of moderate intensity exercise in preadolescent children related to neuroendocrine modulation?" Our team researched the effects of acute exercise on chemical and cellular changes in the brain. I helped design, develop, execute, and analyze the experiments. The study is still gathering data from a few more participants before it will be published.

PERSONAL STATEMENT

A large part of my childhood consisted of being dragged along for doctor appointments, helping my parents with home versions of occupational therapy treatments, and attempting to strike a delicate balance between love and chaos. My brother, Jack, was diagnosed with bipolar disorder and Asperger's syndrome at the age of five, and this changed my family forever. Bipolar disorder causes unusual shifts in energy and activity levels, and causes mood swings that include emotional highs and lows. Asperger's syndrome causes difficulty with social interaction, delayed motor development, repetitive behavior, and low displays of empathy.

This combination of symptoms makes Jack very difficult to interact with, and creates a complicated daily life for my family. There have been times when pills were forgotten, and the afternoon cycled between outbursts of crying and yelling. I remember making excuses not to invite friends over to my house because I was afraid of what they would think if they were caught in the fire of a manic episode. I even remember selfishly wishing I had a different brother. Now, however, I realize that experiencing the world through Jack's challenges has grown me into the person I am today and has driven me towards a career in physical therapy.

Living with Jack has taught me that you never know what another person is dealing with on the inside. Throughout my childhood, I witnessed Jack struggle to fit in at school with peers who didn't understand the mental challenges he had. I saw the pain he felt when he was misunderstood or ignored, and with a heavy heart I would try to cheer him up. These experiences have changed the way I view others, and I now find value in giving people the attention and encouragement they need and deserve. This perspective has shaped my approach to physical therapy as I have learned how to connect with people who are struggling, and to gently encourage them amidst their challenges. While working as a physical therapy aide, I asked a patient I was getting to know how she was doing. When she saw that I was genuinely interested, she started to tear up, and explained that she was frustrated with the way her back pain was not yet healing, keeping her out of work, and causing her to feel inadequate to take care of her family. Although there were dozens of other things going on in the office, pausing for a moment to listen to and reassure her made an incredible difference. Working to help my brother feel loved and understood has shaped me into an empathetic and perceptive person, and this outward focus allows me to encourage patients through their hardships.

My experience with Jack has also taught me how to make people feel comfortable and valued regardless of their status in society. A full year after

SUPPORTING INFORMATION CONTINUED

PERSONAL STATEMENT

finishing high school, I was still helping Jack fix up his resume for job interviews that were consistently unsuccessful. Although he previously had been an active member of the youth group at our church, he became ashamed when he didn't know how to answer questions from peers about his work and school plans, and decided to stop attending. This experience showed me the way that shame and embarrassment can stall progress. I witnessed this in the clinic as well when a patient who had Parkinson's disease confessed to me that she might stop coming because she was embarrassed when she couldn't perform exercises very well. Thanks to my experiences with Jack, I recognized how critical this moment was. I assured her that she was doing a great job, and that a little progress each day adds up to big results. Because I understand and respect patients' feelings of vulnerability, I am committed to making them feel comfortable and valued so they can continue progressing toward their goals. You don't get to choose the family or circumstances you are born into, but you do have a choice in the way you respond. Witnessing Jack's struggle to overcome mental battles has allowed me to be perceptive and encouraging in patients' hardships. Realizing that shame and embarrassment can impede recovery has taught me the importance of motivating people to push forward to their goals. My relationship with my brother has, and will continue to have many challenges, but I am grateful for the love we share and the way he has influenced me to become an understanding, compassionate, and encouraging aspiring physical therapist.

CUSTOM QUESTIONS

PTA EDUCATION

- * 1. Have you graduated from a CAPTE-accredited physical therapist assistant (PTA) program?

Answer: No

PREVIOUS PHYSICAL THERAPIST EDUCATION

- * 1. Have you previously enrolled in a professional physical therapist (PT) program? If yes, you MUST list the institution in the Colleges Attended section of the application, enter all attempted and completed PT courses in the Transcript Entry section of the application and have an official transcript sent to PTCAS. Failure to report this institution and associated coursework may jeopardize your application.

Answer: No

GENDER IDENTITY

- * 1. How do you describe your current gender identity?

Answer: Female/Woman

PTCAS CERTIFICATION AND AUTHORIZATION STATEMENT

- * 1. I certify, as required in the application, that I have read and understand all application instructions, including the provisions which note that I am responsible for monitoring and ensuring the progress of my application.
I certify that I have read and will abide by all program-specific instructions for my designated physical therapist programs.
I certify that I have read and understand the American Council of Academic Physical Therapy (ACAPT) Admissions Traffic Rules for Applicants.
I certify that all the information and statements I have provided in this application are current, correct, and complete to the best of my knowledge.
I certify that my personal essay and the information on my application represent my own work.
I understand that withholding information requested on the PTCAS application, or giving false information, may be grounds for denial of admission to a program participating in PTCAS or may be grounds for expulsion from the institution after I have been admitted.
I acknowledge that a program that makes an offer of acceptance to me will also know the number of offers I have received and accepted at other programs in PTCAS. While the admissions cycle is open, my designated programs will not know the total number of programs I selected on the application or other (non-acceptance) admission decisions made by other programs in PTCAS.
I acknowledge that if I start classes at a PT program, my other designated programs in which my application is still under consideration will be able to view matriculation status, if reported to PTCAS.
I acknowledge that in October after the end of the PTCAS admissions cycle, only my designated programs will be able to view to what other programs I applied via PTCAS and the final admission decision reported by each program.
I agree, understand and consent to PTCAS and the American Physical Therapy Association (APTA) releasing my de-identified application data that does not contain personally identifiable information, as set forth in the PTCAS privacy statement, and admission decisions submitted to PTCAS by my designated PT programs to third party health and education organizations for educational research purposes (including surveys). Such educational research is conducted for the purpose of improving PT education and admissions.
I acknowledge and agree that my sole remedy in the event of any proven errors or omissions related to the handling or processing of my application by PTCAS is to obtain a refund of my PTCAS application fee.

Answer: Indicate your understanding and acceptance of the terms described above by checking this box. Your certification of this statement serves the same purpose as a legal signature, and is binding.

DESIGNATIONS

DOCTOR OF PHYSICAL THERAPY - RESIDENTIAL (CA CAMPUS)

SUPPLEMENTAL QUESTIONS

RE-APPLICANT QUESTIONS

- * 1 Have you previously applied to this education program?
Answer: No
- 2 If you are reapplying to this program, how have you strengthened your application?
Answer: Not Applicable

CAMPUS AND TERM

- * 1 Applicants are allowed only one application to be reviewed by Admissions. Please select one campus and term.
Answer: San Marcos, CA - Summer 2019

SECONDARY CAMPUS CHOICE

- * 1 Should your campus choice reach capacity, are you open to attending a different USAHS location?
Answer:
- Austin, TX
 - San Marcos, CA

AGREEING TO TERMS OF APPLICATION

- * 1 By selecting "I Agree" you are acknowledging that you understand (1) only one application is allowed to be evaluated, (2) after submission through PTCAS you must follow through with an Enrollment Advisor to have your application reviewed as your application is not submitted automatically and (3) you have completed our required one-page online supplemental form. For any questions, please email us at enroll@usa.edu.
Answer: I Agree

SAVANNAH ESTES

savannahlestes@gmail.com | (916) 690-4562

A driven, passionate, and personable leader known for bringing positivity to dynamic team environments and going above and beyond to make patients of all backgrounds feel comfortable and valued. Her background in business administration allows her to effectively manage and take initiative in clerical and customer service roles, bringing a combination of organizational and relational skills crucial to a physical therapy team.

EDUCATION

Bachelor of Science in Biology
California Polytechnic State University 2018

WORK EXPERIENCE

Sports and Wellness Physical Therapy

Physical Therapy Aide|San Luis Obispo, CA |May 2017 – June 2018

Outpatient physical therapy clinic focusing on rehabilitation and healthy living.

- Managed health information in order to efficiently coordinate with health care providers and insurance companies leading to increased patient enrollment.
- Worked collaboratively with Physical Therapists to instruct patient exercises in accordance with treatment plans resulting in their improved strength, flexibility, and function.
- Appointed by clinic director to train new employees in patient modality treatments such as electric stimulation, ultra sound, and ice and heat treatments.

Results Physical Therapy

Physical Therapy Intern|Sacramento, CA | June 2016 – September 2016

Outpatient physical therapy clinic specializing in sports medicine and performance training.

- Implemented workout programs for collegiate and recreational athletes to increase awareness about wellness and safe training.
- Organized referrals and insurance documents to provide pertinent patient data for Physical Therapists.
- Maintained and assembled physical therapy equipment to ensure safe and effective treatment.

Associated Student Incorporation, California Polytechnic State University

Frontline Assistant|San Luis Obispo | January 2015 – March 2016

ASI aims to enhance the quality of student life and to complement the educational mission of Cal Poly through cultural and recreational programs.

- Processed purchase orders and contracts with performers, vendors, and clients for events attended by over twenty thousand members of the community.
- Connected with prospective students to welcome them to the university and efficiently navigate their questions and concerns.
- Created educational outreach campaigns and compiled research data for a proposal of a new campus building worth \$180 million.

VOLUNTEER EXPERIENCE

Kaiser Permanente | June – August 2018

- Assisted Physical Therapists in assessing and rehabilitating hospitalized patients and developed interpersonal skills to clearly and compassionately interact with patients of diverse backgrounds and conditions.

Philanthropy Committee of Kappa Kappa Gamma | September 2015 – June 2018

- Organized events for national and local organizations such as Jack's Helping Hand, Reading is Fundamental, and other community service activities that raised over \$20,000, and earned the President's Community Service Award for Outstanding Greek Life Contribution.

Research Associate, California Polytechnic State University | December 2016 – June 2017

- Developed, executed, and analyzed experiments to provide data on the importance of exercise for the cognitive development of elementary school children.

RELEVANT COURSEWORK

Biomechanics, Anatomy, Exercise Physiology, CPR and First Aid Certified.

Statement of Purpose

The ability to effectively and compassionately interact with a diverse group of people is a key skill in physical therapy. My highest strength, as identified by an in-depth personality test required by California Polytechnic State University, is my ability to build relationships with many different types of people. My passion for learning about and understanding people has driven me to pursue a profession in physical therapy where I will be able to work with a wide variety of patients.

Throughout my life, I have had many unique experiences that have prepared me to relate to a diverse group of people. One of the most significant of these experiences is my relationship with my younger brother, Jack. Jack has bipolar disorder and Asperger's syndrome, which has affected many aspects of my family's life. I have seen the struggle he and my parents faced to get him the help he needed in school, and for him to develop friendships in spite of his differences. Understanding the difficulties of my brother's disability allows me to empathize with people facing similar challenges. I am sensitive to the frustrations of people who struggle to overcome social barriers, mental illness and physical limitations. This perspective informs my pursuit of a career in physical therapy, as it will allow me to help a wide range of people overcome challenges and to make a positive impact on their lives.

Another piece of my background that prepared me to interact effectively with diverse individuals was living in a multigenerational household. I watched my grandmother come to acceptance with retirement, sacrifice some of her independence when she moved in with us, and deal with memory loss. The geriatric patient population is expanding as the baby boomer generation ages, and many of these older adults will seek physical therapy. As I worked with these patients as a physical therapy aide, I was able to relate to their struggles and to understand

the impact injury rehabilitation can have on their lives due to my background growing up in a multigenerational home.

I acknowledge that I haven't experienced the kind of the discrimination many others have faced, but I have been treated differently on the basis of my gender, most notably when I entered the world of motorcycle riders. Last year I showed up to the first day of my motorcycle class to find that I was the only woman in a room full of thirty men. I found myself constantly being picked on by the class instructor, aggressively passed by other riders, and ridiculed for making simple mistakes. I learned what it is like to feel unwanted, underestimated, and misjudged by people who feel superior. This new perspective motivated me in the physical therapy clinic when coworkers were still using the previous gender name of a transgender patient. When I realized this discrepancy, I changed his name on the schedule and clarified with the staff to ensure the patient was addressed the way he wished to be. Soon after, everyone was greeting him by his preferred name and his appreciation was evident. This greater understanding of the effect of disrespect and bias lead me to put great effort into treating individuals with the respect and dignity they deserve. Although the gender discrimination I experienced was minor compared to what other people experience every day, it raised my awareness of the effects of marginalization, and I am now more intentional about making people feel valued and comfortable regardless of gender, race, sexual orientation, religion, age, or mental capabilities. I recognize that my relative privilege gives me a responsibility to advocate for those who feel excluded, and I strive to amplify their voices as they speak out for change.

My life experiences in the areas of disability, age, and gender have built upon my relational strengths and have shaped me into the person I am today. My empathy and respect for others will be core strengths as I interact with patients who are different than me in their social,

cultural, and economic background, and strive to make a difference in the lives of a diverse patient population. Through development of critical thinking, ethical and behavioral standards, and commitment to professionalism, University of St. Augustine's Doctor of Physical Therapy Program would excellently prepare me to achieve these goals and become a competent and compassionate physical therapist.

ADVISOR RELEASE STATEMENT

By answering Yes, you authorize PTCAS to release selected information regarding your PTCAS application and admission status to the health professions advisor and the health professions advisory committee of the post-secondary institution(s) that you have attended. By releasing your information, your advisor is better able to assist you in the admissions process, as well as better guide other students in the future. You cannot make changes to this item after you submit your application to PTCAS.

Advisor Release Statement Answer: Yes

PRESUBMISSION RELEASE

By answering Yes, you authorize PTCAS to release your name and contact information to your designated programs BEFORE you submit your final application. This will allow your designated programs to send you important information about the local admissions process before you complete your application.

Presubmission Release Answer: Yes

RECOMMENDATION CONCERNING ADMISSION

I highly recommend this applicant

To whom it may concern,

Savannah Estes was a research assistant in my laboratory at California Polytechnic State University for the duration of the 2016-2017 school year. In the Human Performance Laboratory, we ask questions that are related to the impact of exercise and physical activity on physical health, mental health, and athletic performance. A particular area of interest in my research has been the acute effects of exercise on cognition and sleep in preadolescent children. Savannah, while not a student in our department of Kinesiology, came to me from her home in Biology asking me to get involved with my research. She had heard that we were looking into the potential roles of the hypothalamic-pituitary-adrenal axis and the sympathetic nervous system in augmenting cognition following exercise in preadolescents. The initial project was still in the conception phase when Savannah came into the lab, and she was heavily involved in the research design of this study. We met every week to discuss her reviews of the literature and she always came with a new thought or idea that would help improve the protocol or make us think more critically about the research question at-hand.

If you know anything of Cal Poly, you may know that our motto is "Learn By Doing". Savannah Estes is one of the finest examples of that motto I have come across in my time here. Not only did she demonstrate abilities to take preadolescent children through a laboratory exercise protocol, administer batteries of cognitive tests, and collect salivary samples for hormonal analysis; she was also critical in recruiting participants. Savannah actually did a gorilla marketing campaign at several local events where she would just show up with stacks of fliers and recruit by word of mouth. I was impressed that an undergraduate student would take that initiative on her own (I didn't instruct her to do this). In my estimation, although I am not a Physical Therapist, the field of Physical Therapy seems to be about solving problems. Addressing the unique challenges each patient faces on the path to recovery may be scientifically different than cold recruiting in a community, but it represents the same set of personal skills that can't be taught in a laboratory. She saw that our biggest problem was not in our protocol, it was getting participants in this hard to reach age group. She did not hesitate to carry out anything that needed to be done to solve that problem, which is also a reflection of her commitment and tenacity. Any school of Physical Therapy who decides to admit this student will see exactly what I am talking about from the moment you meet Savannah. Her energy and her smile bring light to all those around her and I couldn't be more excited to see where she ends up. If you have any questions regarding this applicant, do not hesitate to contact me.

Sincerely,

Cory Greever, Ph.D, CSCS

RECOMMENDATION CONCERNING ADMISSION

I highly recommend this applicant

Savannah Estes would make an incredible Physical Therapist. Savannah observed in my clinic during the summer of 2016. During her time, she demonstrated hard work, reliability, professionalism, empathy, and determination.

Savannah was always ready and willing to help with whatever was needed. As a volunteer, she observed physical therapy with me and some of our other therapist's, and whenever possible she volunteered to clean, fold laundry, or perform any task that needed to be performed. She also demonstrated great reliability. She always arrived early, never missed a day, and was always ready to volunteer if something needed to be done. Savannah was very professional. She understood when she could ask a question and when she could not. She understood what questions she could ask in front of the patient and when she should wait and ask me later. She was very respectful of patient's privacy, their time, and asking for consent if she could observe their therapy. Savannah also showed empathy. She would often ask me questions in private about the patient's she observed. In those questions, she showed empathy in wanting to know more about how the patient's condition was effecting their life, how it could be treated, and what the prognosis was for the patient. She also was an excellent listener and empathizer when patients felt like sharing more with her. Finally, Savannah has great determination. She has followed up with me several times throughout the last two years, keeping in touch with what she is doing in school, and with her aide position. She also, came by my clinic again this summer to keep in touch and update me on what she has been doing as an aide over the last year.

I would highly recommend Savannah Estes for entrance into your physical therapy program.

Sincerely,

Chris Bartkowski, PT, DC

SPORTS & WELLNESS PHYSICAL THERAPY

Where rehabilitation and a healthy lifestyle meet...

August 26, 2018

To whom it may concern,

I have had the pleasure of knowing Savannah Estes for over 15 months now. She worked as a PT Aide in my physical therapy office for one year in San Luis Obispo, California. I describe her as dynamic, tenacious and positively motivated. She lives her life in a constant state of improvement.

Savannah's commitment to learning has been a lifelong process from being salutatorian at her high school to her studies at Cal Poly where she received her biology degree. She volunteered in outpatient clinics, a sports rehabilitation center, two inpatient hospitals in addition to working in our office. Since graduating from Cal Poly, she has taken other prerequisite courses and improved her GPA by retaking four classes. She gained additional experience by volunteering for Jack's Helping Hand, an organization in San Luis Obispo that provides support for children and families with disabilities. These are several examples of her desire to learn as much as possible in an array of ways.

Savannah displayed the critical thinking needed to succeed in the field of physical therapy. This was evident in the questions she asked about our patients, and the way she approached supporting the patient flow in our office. I'm also aware she successfully conducted research and designed experiments in areas such as researching the acute effects of submaximal exercise of the brains of adolescents.

Savannah grew up in close family with a younger brother that had disabilities. This required patience and empathy and inspired her compassion for others. She saw firsthand the struggles that can occur when someone has been marginalized in society and feels strongly about helping people who are held back by disability or injury.

During the time Savannah worked in our office I observed Savannah interacting with a wide variety of people. Her interpersonal skills continued to grow week to week. This was visible not only with patients but also with insurance companies, physicians, and other team members. She was always patient and respectful with any person she communicated with particularly those who were in pain or had difficulties going on in their life.

I began to consider and rely on Savannah as a good leader for our team of PT aides in the office. I know that she was a leader for her research team in college and witnessed her take other leadership opportunities and initiative. She's an excellent delegator and team player.

SPORTS & WELLNESS PHYSICAL THERAPY

Where rehabilitation and a healthy lifestyle meet...

As with any good employee or student, Savannah was given more and more responsibilities. She was asked to assist with more advanced patients with their exercises, grew to learn and perform all modalities flawlessly and sought to take on additional office tasks such as scheduling patients, interacting with doctor's offices and understanding insurance verification. She was always willing and motivated to take on more responsibilities.

Savannah went through the process of physical therapy school applications last year and unfortunately was not accepted. At first, she expressed disappointment, but what I then saw was a young woman who did not get frustrated but continued to set goals and learn. Savannah reached out to the counselors at the programs she did not get accepted at to learn how she could improve and become a stronger candidate and then began to implement what she was told. Additionally, she began training for and ultimately ran her first half marathon. She stayed positive and kept moving forward with both short and long-term goals.

Throughout her time here I never saw Savannah express stress or appear in distress. This was particularly notable because in addition to her job in our office, she took a full class load of 16 units including labs, was involved in campus organizations, attended meetings for clubs and played on an intermural soccer team while staying healthy and active. This took a tremendous amount of time management which will be vital when she is in physical therapy school.

I admire Savannah's dedication to life and her goals of helping others and contributing positively to society by becoming a physical therapist. Her overall body of work earns high praise therefore I highly recommend Savannah as a candidate for any Doctor of Physical Therapy Program. I would not hesitate to hire her as a physical therapist once she completes her doctoral program.

Sincerely,

Douglas B. Johnson, PT

Owner

RECOMMENDATION CONCERNING ADMISSION

I highly recommend this applicant

September 5, 2018

Dear Sir or Madam:

I am the office manager of Sports and Wellness Physical Therapy and managed Savannah Estes for approximately 1 year. It is with great confidence that I recommend Savannah for selection to the physical therapy program.

Savannah worked as a PT Aide in my office, where she exhibited extreme desire for the physical therapy profession. She was very involved with patient care and was heavily relied on, with assisting the physical therapist. Savannah's relationships with patients was both compassionate and professional. Savannah gained a significant amount of knowledge with the mechanics of the back office, including patient exercises, EStem and ultrasound. Also, she learned the mechanics of how a private physical therapy office is run, including scheduling patients, understanding insurances, and using the medical practice software, WEBPT.

Savannah is very committed to learning and is very driven to achieve her goals. When I interviewed her, it was obvious that she is extremely smart and motivated. It was also evident, when she started working for me, her focus is in physical therapy, by the questions she asked and the observations she gathered when working with patients.

I would hire Savannah again without hesitation, for she is someone that is very efficient, effective, knowledgeable, personable, and hardworking. Therefore, again, I highly recommend her to your program.

Sincerely,

A handwritten signature in black ink, appearing to read 'K Mathieu', with a long horizontal flourish extending to the right.

Kirstie Mathieu
